Why AVer ?

Innovative Market Leader

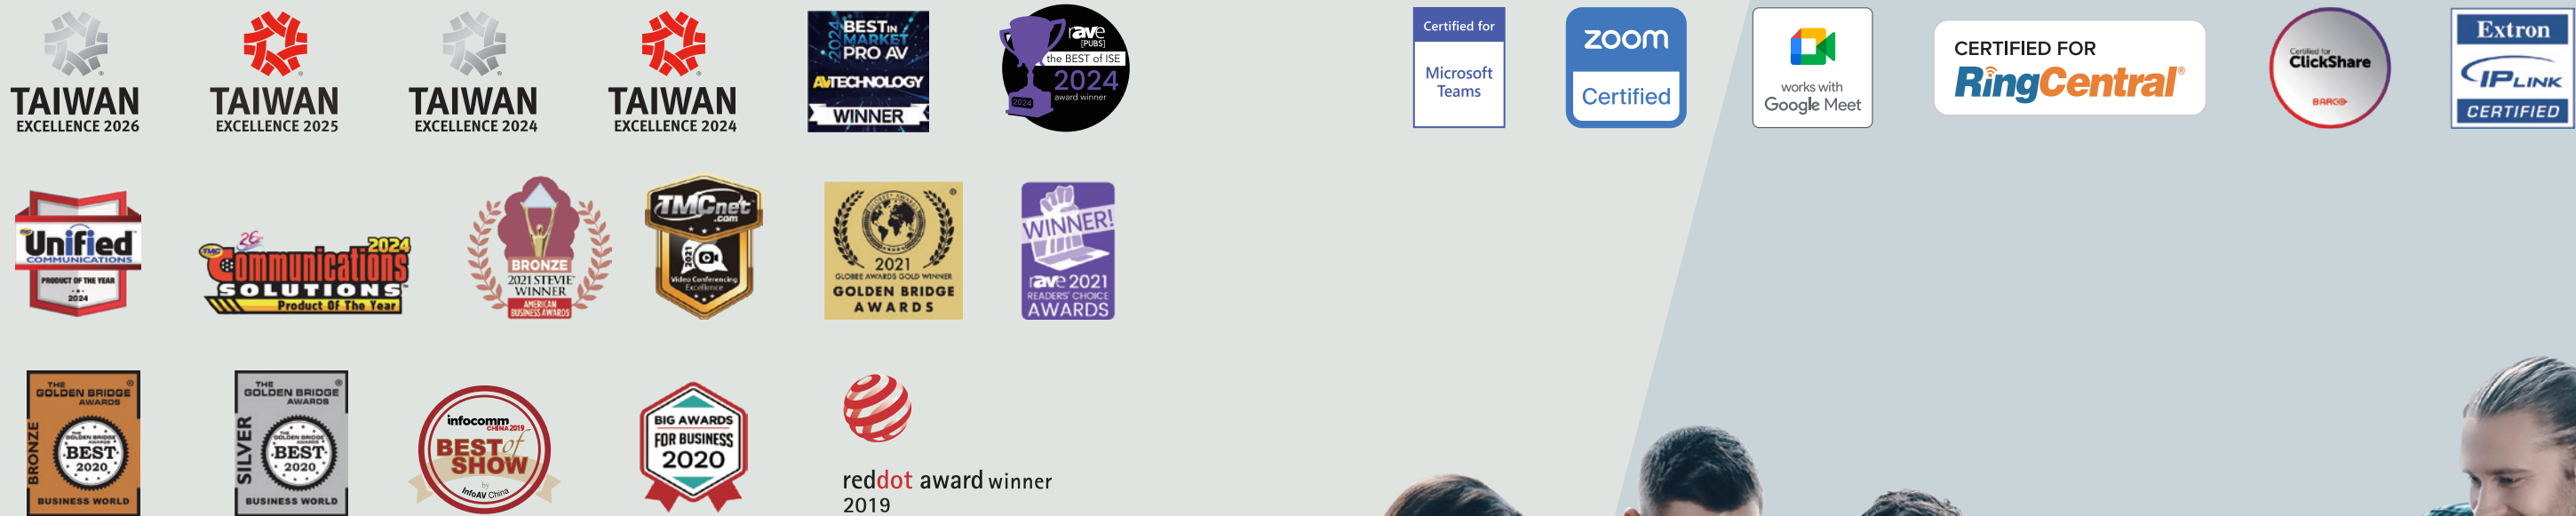

An award-winning provider of professional video conferencing solutions, AVer is devoted to developing innovative and stylish audiovisual collaboration solutions that enhance your business’s productivity and increase your competitive advantage.

Trusted Globally, Chosen by Pros

Thanks to seamlessly integrated software and world-class video quality that match any type of meeting room, AVer is compatible with most cloud- and web-based conferencing applications and is also certified by Microsoft® Teams, Zoom, Google Meet, and Barco. We are committed to improving integration for the best video conferencing experience available.

Compatible Applications

Zoom, Microsoft® Teams, Google Meet™, Intel® Unite™, RingCentral, BlueJeans, V-Cube, LiveOn, CyberLink U Meeting®, TrueConf, Adobe® Connect, Cisco Webex®, Fuze, GoToMeeting™, VidyoConnect™, vMix, WebRTC, Wirecast, XSplit

USB Video Conferencing

The Perfect Video Solution for Any Meeting Room

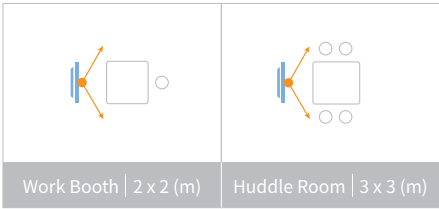

Using a USB video conferencing camera is now a common way of team collaboration for businesses all around the world. As AVer strives to create the most effective collaborations, we provide plug-and-play USB solutions that are equipped with the best video quality and the latest smart functions, making them ideal for use with third-party software.

Huddle and Small Rooms

To meet the diverse needs of modern meeting environments, AVer offers a selection of high-performance USB video conferencing cameras for huddle and small meeting rooms. Our cameras are engineered to ensure seamless remote collaboration for small teams, providing superior audio-visual clarity and fostering efficient business communication.

VB150
Little Bar. Boundless Teamwork

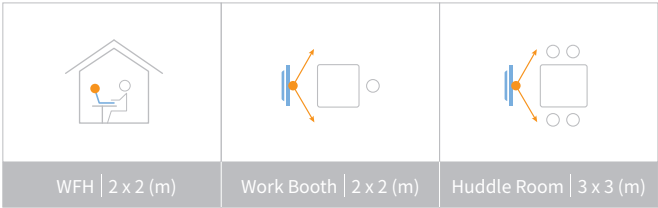

- Video Bar**
- 4K Ultra HD video quality with 120° wide-view clarity
 - Instant BYOD plug-and-play for seamless setup
 - AI Voice Tracking keeps active speakers in focus automatically
 - Smart Composition frames everyone for equal visibility
 - Expandable audio with expansion microphone connection

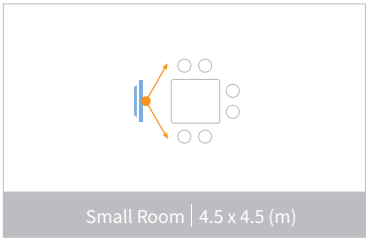

CAM130
For Brighter and Better Meetings

- Conference Camera**
- Professional 4K camera offers lifelike imaging
 - Intelligent lighting automatically adjusts to fit light conditions
 - Lens cover secures privacy in a virtual world
 - Auto Framing and Preset Framing that's easy to use
 - Multiple mounts serve diverse purposes

VB342 Pro
Uninterrupted Clarity

- Video Bar**
- All-in-One 4K PTZ technology offers vivid imagery
 - Auto Frame and Voice Tracking enhance meeting efficiency
 - Deliver detail-oriented presentations with Presentation Tracking
 - Smart Gallery upgrades the meeting experience
 - Uninterrupted clarity created by Audio Fence and Beamforming Technology

Medium-to-Large Rooms

Medium-to-large rooms, ideal for formal company-wide meetings and extensive client presentations, require robust video conferencing solutions. AVer’s conferencing cameras are specifically designed to meet the demands of these spaces, accommodating groups of 24 or more with premium-quality performance, thus empowering enterprises with a clear competitive advantage.

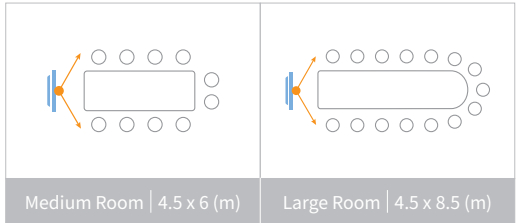

CAM520 Pro3

Masterful Navigating and Presenting

Conference Camera

- Mastering the detail through 36X total zoom lens to boost up your business
- Delicate capture the visual of attendees precisely by AVer Smart Composition and flexibility to present various layouts
- Conduct more efficiency and security meetings through the upgraded AVer SmartFrame
- Delivers 3 simultaneous high-quality 1080p 60fps video streams via HDMI®, USB, and IP ports
- Enjoy enterprise-grade imaging without limitation

All HDMI trademarks and trade dress are registered trademarks or trademarks of HDMI Licensing Administrator, Inc.

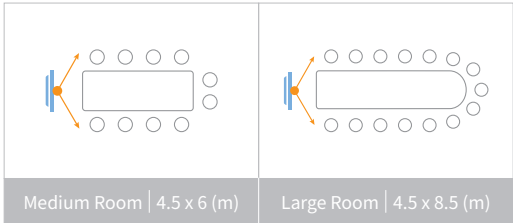

CAM550

View Clearly and Capture Widely

Conference Camera

- 4K dual lens Sony Exmor CMOS offers wide-angle clarity for mid-to-large scale rooms
- Dynamic Framing enhances meeting efficiency
- AI gesture recognition delivers contactless control
- Highlight participants with Smart Gallery
- Accurate attendee capture with AVer Smart Composition — no installation required
- Collaborating with FONE700 to function Voice Tracking

Medium-to-Large Rooms

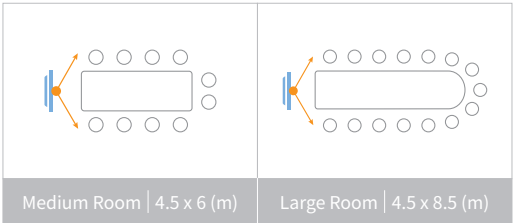

CAM570

Perfectly Track and Capture Attendees

Conference Camera

- Built-in audio sensor enables Voice Tracking
- Dynamic detection optimizes meeting experience
- Smart Gallery delivers a clearer view of faces
- The CAM570 offers touchless gesture control
- Accurate attendee capture with AVer Smart Composition – no installation required
- Smart ViewShift reduces movement sensitivity

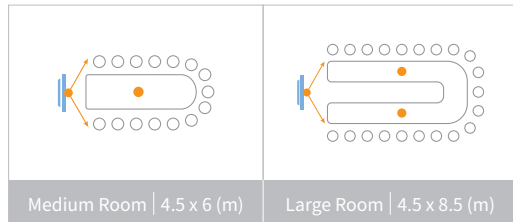

VC520 Pro3

Present with Realistic Imagery and Vivid Audio

Conference System

- Dominate the details with 36X total zoom lens and WDR sensor
- Accurate attendee capture with AVer Smart Composition – no installation required
- Delivers 3 simultaneous high-quality 1080p 60fps video streams via HDMI®, USB, and IP ports
- Support video and audio with one USB cable solution
- Exceptional audio quality with an extended speakerphone

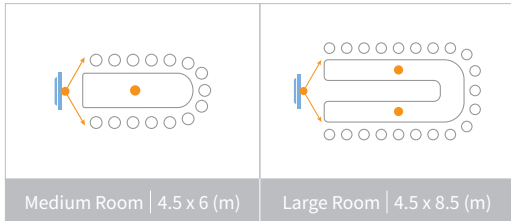

VC550

Superior Dual-Lens Audiovisual System for Collaboration

Conference System

- Adapt to mid-to-large rooms with scalable speakerphones
- Advanced noise suppression achieves amazing acoustics
- 4K dual lens Exmor image sensor offers wide-angle clarity for larger rooms
- Dynamic Framing enhances meeting efficiency
- Highlight participants with Smart Gallery

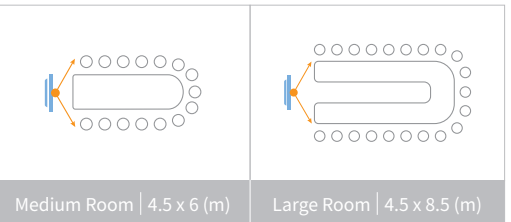

VB350

Capture More

Video Bar

- Hybrid 18X zoom captures farther and clearer
- Stable lens switching enables inclusive and engaging hybrid teamwork
- Smart ViewShift reduces movement sensitivity
- Conversation View reduces camera movement
- Audio Fence eliminates background noise
- 14-Microphone array delivers lifelike audio

VB370A

Android™ Powered. Zoom Rooms Perfected

Video Bar

- Built-in Android™ and Zoom Rooms ready
- SIP/H.323 protocol support for VoIP connectivity and enhanced security
- AI Voice Tracking locks focus on the active speaker instantly
- Professional video capture and premium audio into one device
- Dual 4K displays, double your impact
- Expands audio capabilities and integrates with CP10 G2 for comprehensive conferencing
